Leblanc Avant Tenor Saxophone in B ♭ LTS511

SKU: LTS511
Level: Advanced / 500

With history dating back to 1750, Leblanc has built a reputation for manufacturing some of the finest musical instruments in the world. Blending heritage with innovation, Leblanc continues to push saxophone manufacturing forward.

The Leblanc LTS511 is an intermediate tenor sax with pro-level DNA, inspired by top-tier French designs and built to outperform the competition at its price point. From first note to final phrase, it delivers rich tonal complexity, rock-solid intonation, and lightning-fast response.

Crafted from premium yellow brass, the LTS511 features a post-to-rib-to-body construction that enhances projection and resonance. A one-piece hand-hammered bell and hand-adjusted neck add to the instrument's sonic depth, while Pisoni Pro pads ensure a reliable seal and lasting performance.

A standout feature is its underslung neck octave key: a sleek, performance-driven design originally pioneered by Leblanc, which improves action and adds a touch of classic styling.

Players will appreciate the effortless feel of blue steel needle springs, providing the light, snappy action that Leblanc is known for. Ergonomic keywork supports precision in even the most demanding passages, and a proprietary 3-phase tone hole levelling process guarantees a perfect pad seat for long-term stability.

Each horn is finished with detailed hand engraving and includes a protective backpack case with thoughtful storage. Every LTS511 is fully play-tested and professionally set up to ensure you're stage-ready right out of the box.

Features

- Beautiful, complex, and projecting tone
- Light, fast key action with underslung octave key
- Easy response
- Modern ergonomics and sturdy key work
